In conversation with world-wide conditions as well as with affairs throughout this country.

RECESS WITH PAY—A number of Coffee County school teachers are of the opinion that they made a mistake in being paid for recess instead of legislators, contacting now how it would be to receive a nice long Christmas and New Year vacation on full pay. But school teachers are happy to get even a considerable portion of their year's pay, to say nothing of having the power to vote themselves a 15-days vacation at \$6.00 per diem. Wonder how many of our legislators who are so presently concerned about the welfare of the poor down-trodden school teachers, really think as much about the schools as they think about voting themselves the \$102 per each. It must be admitted that members of the State Legislature are underpaid and many of them serve at a sacrifice, but while that is true, it is not fair to think that their method of increasing their pay was somewhat similar to the underpaid clerk in a store who knocks down a little now and then, excusing himself by saying that he is taking what really belongs to him anyway. It is not long time for the people of Alabama to forgive or forget the Legislature's action just prior to the Christmas vacation.

IDEAL WEATHER—It would be hard to imagine a finer brand of weather than prevailed here about prior to and during the Christmas holidays. The temperature was almost spring-like during the daytime, the nights and early mornings having just enough of the winter tang to be interesting.

SANITARY SURVEY—County Sanitary Inspector R. M. Drew, assisted by Wendell C. DeLoach, is making a thorough sanitary survey of Elba and environs. The survey is unusually comprehensive and if everyone will cooperate as they should, it will be a complete sanitary, record and history of every house in this community. The City Council has promised to cooperate with Mr. Drew in every way possible and will consider his offers and proposals at its meeting next Monday night. Inspector Drew states that if the citizens of the community will cooperate it will be possible for all homes outside of the sewer districts to obtain pit toilets for approximately \$16 on easy payment plans that would ordinarily cost between \$20 and \$25. Many other sanitary features are included in the survey that is being taken, such as mosquito and rat infestation, contagious diseases, etc. In fact, Mr. Drew states that at the completion of the survey he will have a complete sanitary history of every home in the community for the past two years.

UNRELIABLE—What could be more suggestive than the comparison: "As unreliable as the Elba house clock?" One week it was fast and the next week it was slow and the next week it was correct time. In fact, the clock has gotten to be so unreliable that passengers do not even dare to go by it when they want to catch the Elba house clock.

PONIES—As a result of Santa Claus visit, the neighborhood composing the southwest residential section of town is well supplied with Shetland ponies. The happy youngsters who are so blessed with ponies are: Eugene Taylor, Margaret Taylor, Roger Murphree, A few kind folks were experienced in the city streets of learning to ride their fine Christmas gifts, but rapid progress has been made and all the boys are now quite proficient in the art of horsemanship.

USEFUL BEAST—While three boys in the southwest section of town were receiving new ponies for Christmas, Jim Whitman's son, "Bubbie," had become tired of his one he got last year, so Mr. Whitman sold the critter. Jim says, however, that he will miss the little fellow this coming season, as he did not have to mow his yard but once all last summer.

HOW COME?—Little Ted Talbot, son of Mr. and Mrs. F. H. Talbot, is at a loss to understand the financial order of things as they are practiced in this community. Ted attends kindergarten at the home of Mrs. Lillian Ratten. Recently, when he was given the money to carry to his teacher as tuition, he remarked that he thought "Miss Violet" ought to be paid.

The death of Senator Peter Norbeck of South Dakota reduces the number of Republican Senators to sixteen, or exactly one-sixth of the total number of South Dakota is expected to appoint a Democrat to succeed Mr. Norbeck, but unless he acts promptly the incoming Governor, a Republican, will have the say as to who shall fill the vacant seat.

EMMA MCGOWAN, WELL KNOWN NEGRESS, DIES

Emma McGowan, one of Elba's oldest and most highly respected colored citizens, passed away at her home about two miles south of town last Wednesday, December 23rd. She had been ill three weeks.

Emma was 79 years of age and was born and reared in the county, having been a daughter of the late Dan and Emma Larkin, pioneer colored settlers. She was well known throughout this section, was a good woman and had countless friends among white and colored people alike.

Surviving are her husband, Wilford McGowan, one sister, Lizzie Adams, and one brother, C. P. Larkin. Funeral services were held at Elba Zion Baptist Church with Rev. C. M. Prichard officiating. Burial was at the cemetery.

DAIRY HERD GAVE \$2.12 FOR \$1 WORTH OF FEED

AUBURN, Ala.—The McLean-Stewart dairy herd of Montgomery County returned \$2.12 worth of milk for each \$1.00 worth of feed it consumed during November this year, announced P. W. Burns, extension livestock specialist, in reporting that the herd averaged 548 pounds of milk and 30.2 pounds of butterfat.

The second highest producing herd was owned by R. B. Kent, Birmingham. It averaged 548 pounds of milk and 29.6 pounds of butterfat.

"A study of dairy herd improvement association records made in Alabama on over 3,000 cows shows that cows that freshen in September and October produce the most milk and butterfat and show the greatest return over feed costs," he advises.

"Breeding cows to produce bulk with plenty of production back of them is one of the cheapest and surest means we have of increasing production and lowering our cost of milk."

Forty-eight cows in the Alabama Cow-Testers Association were listed as "quality cows" during November for producing over 800 pounds of milk or 40 pounds of butterfat during the month.

DRIP SHOWN IN LYNCHINGS; TUSKEGEE REPORTS 9 SLAIN

TUSKEGEE, Ala., Dec. 28.—Nine persons were lynched during 1936 and officers prevented 25 other lynchings, Dr. P. D. Patterson, president of Tuskegee Institute, said today. All the lynched victims were negroes, and the lynchings occurred in Southern States, a report from the department of records and research at Tuskegee revealed. Fewer lynchings took place in 1936 than during any of the last four years, Dr. Patterson reported. This year's nine slayings was 11 less than in 1935, nine less than in 1934, and 19 less than in 1933.

Six of the persons lynched were in the hands of the law; two were taken from jails and four from officers of the law outside of jails, the report said. Officers prevented five lynchings in Northern States, and 30 in the South. Dr. Patterson said, using armed force to repel lynch mobs in five cases. Prisoners were removed or guarded by the police.

Mr. Milford Brock had charge of the bride's party, Misses Katharine McDowell and Laurie Brock served angel food cake, whipped cream and hot apple sauce. 50 guests called. The beautiful gifts expressed popularity and love for the bride.
